**ABSTRACT**

*This writing aims to see how the role of BP2MI in the protection of Indonesian migrant workers in Malaysia during the covid-19 pandemic. The Covid-19 pandemic that is sweeping all countries in the world has resulted in a new change in the international order. Malaysia is one of the countries that has been affected by the COVID-19 pandemic. Forced migration that occurs around the world has resulted in the phenomenon of migrant workers. Malaysia is one of the destination countries for migrant workers from Indonesia, a strategy carried out by BP2MI in Malaysia in the COVID-19 situation for reasons of human security and economic interests where PMI in Malaysia is the largest contributor to remittances after Saudi Arabia. The strategy aims to form responsibility and the presence of the state to provide protection for its citizens abroad, the author would like to describe how the role of BP2MI in the protection of Indonesian migrant workers in Malaysia during the covid-19 pandemic. This study uses a qualitative-explanative approach with data collection techniques through interviews as primary data.*
